

# WITH OUR BOYS IN SERVICE

Official word has been received from the War Department by Mrs. Beth Jackson that her husband, First Lt. Thornton H. Jackson, reported missing on his 49th bombing mission over Hungary, is a prisoner of the Germans. The wire said Lt. Jackson, a navigator, had been wounded. Details were promised by letter immediately.

The first Truckee boy to return home after participation in the invasion of France is Lt. (j.g.) Johnny Saibini, who surprised his parents and friends Friday by flying home from the east coast after a trip across the Atlantic from the invasion scene. The young man is now in full charge of the engine room on a destroyer escort. For five days his ship stood off the coast of France hurling shells onto the beaches paving the way for the attack. Johnny said that he was frightened only until the first shots were fired, then the fear gave way to excited action with no time for being afraid. His ship suffered one near miss but no casualties. Prior to the invasion, Johnny was doing convoy escorting in the Mediterranean. He has been on active duty since January. He returns Monday to his ship.

From down San Diego way this week comes a welcomed letter from Apprentice Seaman Frank Giovannoni who reports being fortunate in being chosen to go to the electrician's mate school for 16 weeks. He says he is quite proud of that and it's something he likes. "I receive the paper every week and it's like getting a letter from everyone. It's something I always look forward to," Frank wrote. "I get pretty anxious and uncomfortable when it's only a day late." The letter indicated that Frank has been pretty busy. He spoke happily of the encouraging news from abroad and paid tribute to the men on the front. He asked to be remembered to all his friends and hopes to get home soon.

Pfc. Philip Kearney writes that he saw Pfc. Charlie Pierce recently and he is well and happy and expected soon to be on his way to the old home town. Both boys have been in New Guinea for more than two long years and have had plenty of action. Phil had received his May primary ballot and registration blank on June 20—too late to vote. He had a choice between a 30 day furlough and returning to the South Pacific or a rotation with reassignment at random after getting back to America. He chose the rotation as he has seen all the wanted of the S.W.P.A. But the chances of getting home are small. He is on watch on a coral island where they have tranquil days and nervous nights as the japs send token raids over their base which keeps them sleeping with one eye open.

Lt. Herman (Bud) Owens paid his family a surprise visit from his post in Texas this week. Bud has been transferred from Washington to the sunny south.

Sgt. Philip Olander, son of Mrs. Helga Olander of Forest Inn on Lake Tahoe, who was reported as missing in a mission over Germany a month ago, is now reported to be a prisoner of the Germans.

Staff Sgt. Carl Brooks of Kings Beach has again been transferred from Waco, Texas to Ellington Field in the same state.

Friends and relatives of Angelo Besio, pharmacist's mate, 2-c have heard from him recently from Saipan where he said he stayed in a very wet fox hole for three weeks, and one night in particular, he was very jumpy. After the quantities of the luke warm medicated water he has had to drink he said he would gladly give \$100 cash for a cold glass of beer and a hot hamburger. Ange says he will ship two jap parachutes home when he can take time out.

In a letter written on the back of a K ration menu, word has been received from Cpl. Ray Barton of Brockway, now in France with the medical paratroopers, that he went over with the 101st Airborne Division on D-day and that the going was tough. He inclosed several chevrons from uniforms of some of Hitler's boys who will no longer need them; also some post cards from the Cherbourg area. He said that with the food issued by the army and with what the boys could forage, from the country, they were not losing too much weight. Butter, milk, cider and wine were plentiful, but meat and other commodities were hard to get. He sends regards to the folks back home and asked to check up on the Sierra Sun which he has not received for several weeks as he wants to catch up on the home town news once again. Next week another and even more interesting letter from Ray.

**Mother Visits—**  
Mrs. G. H. Hamill of Ogden, Utah, was a recent guest at the home of her son in law and daughter, Mr. and Mrs. Orville Thorp while she was en route to Los Angeles for her health. The visitor expects to return to Truckee.

Pharmacist's mate Max McGwinn writes home that he cannot accustom himself to the Australian cold, which is predominating now. Imagine that after having lived so many years in Truckee. Max celebrated the Fourth of July with a turkey dinner which, he says, can be just as good then as on the last Thursday in November.

## DRIVER ESCAPES IN WRECK AS PUMPS ARE DEMOLISHED

Three gasoline pumps, solidly cemented and two iron posts were broken out of the front of Collier's Richfield Service Station in West Truckee Tuesday night at 11 o'clock by a car driven by Willard V. Hickman, 28, vending machine operator from Bakersfield, as the car sped east around the corner at a high rate of speed.

Although Hickman told the investigating officer, K. C. Kolb that his companion, Robert L. Unger, 22, of Rochester, New York, fell asleep and toppled against him, causing him to lose control of the machine, the speed of approximately 50 miles an hour in the 25-mile zone would be sufficient to cause the mishap.

Fortunately both men escaped serious injuries, but the car was badly damaged.

No citation was issued.

The property belongs to H. S. Eaton of Truckee.

Unger told Constable N. F. Dolley that it was a most thrilling ride, at times the car speeding up to 70 and 80 miles an hour. He denied being asleep at any time.

## MAN BURNED AS HOTEL THREATENED

Bern Buller, 36, employed by a local construction firm, suffered burns on his right arm and was jailed on a drunk charge after he accidentally started a fire in his room at the Riverside Hotel Sunday morning. The fire had gained considerable headway when discovered and a mattress, rug and bedding were destroyed. The fire department was called to check the blaze and Buller was jailed for investigation and released the following day.

## DOYLE MCGWINNS HAVE BABY GIRL

Mr. and Mrs. Doyle McGwinn are the happy parents of a daughter born at Reno on Tuesday, July 25. Frances Anne is believed to be the name decided on for the little girl who tipped the scales at 7 pounds, 11 ounces at birth. The mother and child are reported to be doing well.

Father McGwinn is a private first class at an army post in North Carolina.

## NEW DISPATCHER FOR FOREST SERVICE

Gordon B. Vance has arrived at Nevada City to take over the post of chief dispatcher of the Tahoe National Forest held by Elwood Stone for the past seven years. Stone transferred to the Tahoe accounting office in April.

## BALANCE GAINS IN COUNTY TREASURY

NEVADA CITY, July 27.—Miss Elma Hecker, Nevada county treasurer, said the balance in the county treasury on July 1 was \$415,554. A year ago the balance was \$316,348. Receipts during the fiscal year were \$1,459,976 and expenditures were \$1,044,422.

## MAN RELEASED ON NAVY THEFT COUNT

O. W. Flemming, 44, Stockton, was released from jail here Sunday after an investigation into his possession of clothing belonging to a chief petty officer in the navy. Flemming said he took the coat and cap from a rack in a Sacramento tavern while he was intoxicated. He was arrested here when he tried to buy drinks without cash to pay for them. Constable Tom Dolley made the investigation.

## ELVA ANDERSON, EARL JOHNSON WED

Mrs. Elva Anderson was married in Reno on Friday, July 21, to Earl Johnson at a quiet wedding service. The Johnsons have lived here for a number of years and both are widely known. He is employed by the Southern Pacific Company and Mrs. Johnson at the Truckee Mercantile store.

## DAUGHTER IS BORN TO TRUCKEE FAMILY

Mr. and Mrs. J. D. Shelton of Truckee became the parents of a girl born in a Reno hospital on July 25. The name and weight of the infant were not immediately learned.

## Going Home—

Mrs. Carl Smith expects to leave for San Francisco tomorrow after several weeks at her Donner Lake home. Smith preceded her when his vacation ended.

75th Year, Number 25

## My Place In The Sun

By CPL. DOUG BARRETT

Excerpts from letters from the Canada theater of war operations

You will read in the Dusty Digest (the local post paper of which the managing editor is Cpl. Doug Barrett) of the recent visit of the Vice President to our post. My personal observation of him was nil inasmuch as I was out at the farm the night he was on the post. Most of the boys were—naturally—flattered by the visit and he created a great deal of good will but it was somewhat tainted by the fact that the Democratic Convention will be July 19th.

Speaking of politics, they're in full swing up here too. Premier Manning, chief executive of Alberta, has called a provincial election for August 8. The elections here are set by executive proclamation and Quebec, Alberta and New Brunswick all go to the polls on the same date. The CCF which seems to be the coming party up here, held their convention here today (July 17) and on Friday the CCF leader in parliament—which means their candidate for Prime Minister—will be here to speak to the voters of the local "riding". The CCF is a socialist federation run by a bunch of young political amateurs that are just plain fed up with the old line politics. In their first big test this year—Saskatchewan—they gave the Liberal party an awful banging, taking either 47 or 49 seats out of a possible 53 and that after the Liberals had been in power for 10 to these many years—even longer than FDR. In Alberta, there is a peculiar situation. Neither of the old line parties—Liberal or Progressive-Conservative—have much show. They have had to combine forces against two "slightly to the left" parties—the CCF and the Social Credit—to even muster a show. Social Credit is now in power having whooped in a few years back on a platform promising \$25 a month to every Albertan. While they haven't kept this promise, they have made real social progress and have set up a provincial banking system paralleling the established private chartered banking system. All in all, they are still pretty strong and their main opposition comes from further to the left—the CCF.

It is peculiar that in both great nations on either side of the Parallel that the emphasis of youth is being stressed by the opposition to the government in power. In Canada the opposition is far to the left of the government and in the "old country" it is a shade to the right, but in both the emphasis is on youth. McKensie King has been leader of the Liberal party for the past 25 years and most of that time he has been prime minister. Really, Canadian politics are most interesting to me and I've learned a lot by listening.

## NEW NON-HIGHWAY GAS BOOKS ISSUED

E-2 and R-2 non-highway gasoline coupons are now being issued to farmers and other non-highway users and will be valid concurrently with the E-1 and R-1 coupons now in circulation. The Office of Price Administration announced this week.

The new R-1 (five gallon) are printed in blue ink. The R-1's are printed in purple ink. The E-2 (one-gallon) coupons are printed in black ink instead of the orange ink used for the E-1's. Both the E-2's and the R-2's bear the notation non-highway. In addition, the E-2 coupons will carry the legend—Not good for obtaining gasoline to propel registered vehicle.

## NEW MANAGER HERE FOR SHELL OIL CO.

Donald Hansen has arrived from Auburn to assume active management of the Shell Oil Company plant here. Hansen, who has lived in Auburn for a number of years, comes to Truckee well recommended for his interest in civic affairs. With Mrs. Hansen and their eight year old son, Hansen will occupy the Dolley house at Gateway Park about the first of August.

## JOHN BAXTER DIES; FUNERAL IS HELD

AUBURN, July 27.—Masonic funeral services were held at Auburn Monday for John Quincy Baxter, 70, pioneer resort owner at Baxters on Highway 40, who died last Friday. Burial was in the family plot in the Auburn district.

## Former Truckee Boy Killed In Battle In Italy

## Ben Barrow Dies In Italy; Was In Many War Theaters

Mrs. Harry Campbell of Reno has been notified of the death of her son, Pfc. Ben F. Barrow, killed in action in Italy, June 1. Pvt. Barrow was 23 years old, born in Reno and attended the Reno and Truckee schools, enlisting in the army in 1939. He was the son of B. F. Barrow, Parker Dam, California, formerly of Reno and Farad, where he was employed by the Truckee River Power Company.

Young Barrow was the son of Mrs. Frank Gallen's step father and lived at Farad when attending the Truckee schools.

The young man participated in the first landings in North Africa, Sicily and Italy and his mother received a letter from him from the Anzio beach-head on May 7. He was wounded at Salerno in making the crossing of the Volturno river on October 9, 1943.

He was discharged from the hospital in December of that year and again went into service and had his feet frozen. On July 1 of this year, word was received that he was missing in action in Italy and on July 18 notice was received that he was killed in action June 1.

## TRUCKEE WOMAN HEARS FROM TWIN AFTER 23 YEARS

Mrs. Robert Luck was pleasantly surprised yesterday to receive a letter from her twin sister, Mrs. C. H. Teague of Seattle, from whom she had not heard for 23 years.

As infants in Missouri, the two were separated when their mother died and 36 years later, Mrs. Luck traced her sister to Kansas where they spent their common birthdate together. Since that the local woman has not seen her sister who found her present address through relatives.

Although they have not been together, there has been similarity in their lives and they plan a reunion as soon as possible.

## WAR FILMS SHOWN AT LIONS MEETING

Realistic films of various sectors of the war taken in actual combat, one of them being a restricted film taken from the Germans, were shown at the meeting of the Lions Club last night by W. C. O'Hara and W. Wright, officials of the Standard Oil Company from Sacramento. The battle of the Marshall Islands, the Yanks taking Rome and other shots proved educational. H. G. Loehr, representative of the Standard here, was program chairman.

Guests included H. Lander of Linsey, Lt. John Saibini of the navy, home on leave and Don Hanson of the Shell Oil of Truckee. Harold Langille presided.

## MORE POPULAR BOOKS AVAILABLE

Some of the most popular books on the shelves at the Wyethia Club's Lending Library, according to the committee in charge are Lieutenant's Lady by Aldrich; C-O Postmaster by St. George; The Uninvited by Macardie; Winter's Tales by Dinesen and Thirty Seconds Over Tokio by Lawson.

These are only a very few of the many new, popular best-sellers now available.

## Guests Here—

Mr. and Mrs. Jack Langille and daughter Shirley of Placerville were guests of Mr. and Mrs. Harold T. Langille during the weekend.

## In West Sacramento—

Mr. and Mrs. Jack Pistoia left for West Sacramento this week where they plan to remain at least for two months.

## Guest Here—

Mrs. Louise Thompson of San Francisco is a guest of Mr. and Mrs. J. A. Wolert.

## In Southland—

Mr. and Mrs. William Gautsche are enjoying a two weeks vacation at their former home in Inglewood.

## Colfax Visitors—

Mr. and Mrs. E. J. Riordan were recent guests of Mr. and Mrs. Chester Gibbs at Colfax.

## Working at Post Office—

Lois Farrar of Polaris is working at the Truckee post office.

## : Sun : Beams

by WALTER M. BARRETT

Much has been said in recent weeks about the big job the railroads are doing in the war effort, hauling huge loads in record time. Credit for the achievement has largely gone to the top-ranking officials, but we wonder how many people actually stop to consider just who is responsible for the tremendous chore being done by the railroads. True there must be the so-called big-shots, the executives or there couldn't be organization, but the actual work is done by the men on the lines—the trainmasters, the roadmasters, the section foremen, the enginemen and trainmen, the clerks and laborers. These men go to make up what we know as the railroad and our Southern Pacific is an example. Let these subordinates relax and stop working their long hours on tough jobs and see if we could still make a claim of the terrific job being done by the railroads.

Business in this region, we are told, is better than it has been for many years and is indicative of what we may expect after the war when the huge populations, now frozen in war industries, start moving about. We should prepare ourselves now for what is certainly to be the biggest upturn in local business ever experienced here. This cannot be done by wishful thinking. To prepare ourselves to meet competition from other resorareas we must bestir ourselves, get more than ever. Money no doubt will be made available for promotion of local enterprise if we prepare the blueprints and plans and get ready to present our claims in a businesslike workable manner. We can't accomplish all this without effort and we can't hire it done nor can we let George do it. It's up to each and all of us and there's need for action right now.

It is a pleasure for us to compare the activities of the consistent, every-week advertiser with the non-advertiser. Our study more than makes us satisfied with the part we play in advertising. Always, or nearly always, you will find the advertiser a snappy, wide-awake, up and coming merchant. This fact goes hand in hand with his advertising schedule. The modern business man should no more be without a consistent advertising program than he should without a store.

## FLYING TIGER IS ROTARY SPEAKER

Captain Louis Costa, a former member of the famed Flying Tigers, who once had the pleasure of flying Madam Chang from Chungking to Ragoon, and who is credited with having shot down five jap zeros, spoke before the Monday night meeting of the Rotary Club. He gave an interesting account of his experiences in China. The program chairman was Johnny Ciardella and Tom Buell presided.

Visiting Rotarians included Otto L. Fox, Auburn; Dr. A. S. Boehmer, Lodi; Fred Marwedel, Oakland; Dale E. Wood, Vista; Doris T. Hite, Roseville and Marks Smith, Alturas. Other guests included Mrs. F. Marwedel and son of Oakland; Lt. John Saibini of the Navy and Mrs. Thompson of Berkeley.

## RAILROAD WORKER DIES AT TRUCKEE

The body of Herman C. Jones, 65, who died here last Thursday night following a brief illness, was shipped to Los Angeles for burial. Jones was a carpenter and bridge inspector for the Southern Pacific company and had been engaged in removing the old tracks to Tahoe.

The deceased was known at Knights Landing where he served as bridge watchman from 1937 to 1942 before being transferred. He entered the railroad service in 1911 and worked on the Portland division.

He had been in failing health for a number of years. He leaves his wife, Mrs. Anna Jones, employed at Camp Kohler and a sister, Mrs. Daniel Walsh of Sacramento.

## Replaces Captain—

Sergeant H. B. Fowler of the state highway patrol has been working in Roseville recently, replacing Captain George Peterkin who is undergoing medical treatment in Orange county during his vacation period. Officer Earl Crane, of Baxters and Jack Coe of Auburn are working temporarily in this district.

## School Budgets To Be Studied In Local Meets

## Schools Seeking Total Of \$26,239 For Year's Operations

A total of \$26,239 is being asked in proposed budgets for the operation of the two Truckee schools for the year 1944-1945, according to the budgets printed complete elsewhere in the Sierra Sun today, submitted by W. A. Carlson, County Superintendent of Schools.

Of this total, salaries for the instructors consumes the largest part, \$16,500 being requested for this purpose, \$10,275 asked by the Meadow Lake Union High School and \$6,225 budgeted for the purpose by Truckee Elementary School.

The sum of \$9,803.45 will be required in current district taxes to carry on the required work under the proposed budget. Estimated current receipts and available balance, other than district taxes for the two schools adds up to \$16,435.55. This includes moneys from the state, the grammar school getting \$7,192.90 and the high school \$9,242.65. This is based on the average daily attendance, plus other state contributions.

Aside from the teachers' salaries, the grammar school seeks \$2,095 for operation of the plant; \$1,650 for auxiliary services; \$100 for administration; \$560 for maintenance of the plant and \$536 for fixed charges.

The high school will require \$1,230 for operation of the school plant; \$860 for maintenance; \$500 for auxiliary services; \$148 for fixed charges and \$300 for administration.

Public hearings will be held on the proposed budgets at the schools on Monday, August 7 at 7:30 p.m.

## PROVISIONS BURN IN TRUCK BLAZE

C. A. Tollefson of Big Chief Camp and English Villa, suffered minor burns last Friday in extinguishing flames in his pickup truck which destroyed more than \$50 worth of merchandise before they were discovered. Tollefson had left Reno a few minutes before the fire was noticed as he drove along the highway just west of the Nevada city. He presumed that the blaze started from a cigaret flicked into the truck as it was parked at Reno.

## SHED DESTROYED AS YOUTHS CARELESS

A shed in the rear of the home of Mrs. Della Burlingham in West Truckee was destroyed at 7 o'clock last Thursday night when a fire, said by Fire Chief N. F. Dolley, to have been started by youngsters smoking in the shed, consumed the structure. The department responded promptly and kept the flames from spreading.

## TWO ESCAPE AS CAR RUNS OFF HIGHWAY

Major Edward J. Schenck, 46, of New York and Mrs. P. G. Topping of Tahoe, were not injured when the car driven by the former ran off the Truckee-Tahoe highway Saturday at 1:30 a.m. and was wrecked. The mishap occurred just north of Tahoe City as the car was traveling toward Truckee.

State Patrolman Earl Crane who investigated said Schenck could not account for the cause.

## FIVE NEW MEMBERS JOIN EAGLES LODGE

Five more new members were added to the roster of the Truckee Lodge of Eagles here at the meeting last Thursday night. They were Sidney Gamlin, Okla. Hensley, James McDonald, Frank Crowley and James O'Neill.

The evening was featured by an Italian dinner at Moro's at which 30 members enjoyed the repast. Frank Holt, president of the lodge, presided at the meeting.

## BOTTLES PARENTS OF ANOTHER SON

The birth of Roger Markam Bottel on July 18 at Los Alamos to Mr. and Mrs. Robert Bottel was cleverly recorded in announcements received by local friends. The boy is the second son of the Bottels who became well known here while Bottel was employed at the quarantine station.

California's canning and processing industry estimates that more than 70 per cent of the state's fruit pack and 53 per cent of the vegetable pack will be needed for the armed services and lend-lease this year.

Lumber production in the United States was estimated at 7,701,602,000 board feet for the first quarter of 1944.

## EVERY GENERAL TAX CENT COST TAXPAYERS HERE \$1850

Every cent of Nevada county general tax rate costs the taxpayers of the county about \$1850, California Taxpayers association stated today, making public its analysis of revenue from property taxes in California counties.

Based on the \$18,543,955 assessed value of property in the county for 1943-44, every cent of rate amounted to \$1,954 in property tax levy. Any change in the assessed value of property in the county for 1944-45 will, the association pointed out, increase or decrease the amount the county will receive from each cent of rate levied.

Total tax levy of \$481,767 against property in the county for 1943-44 was made up of the cent and dollar rates levied by all the governmental units in the county, the association said.

## NEW LABORATORY FOR SHELL TO BE ERECTED AT SALIDA

Placing another potent weapon in the hands of democracy with the idea that Food Fights for Freedom, the Shell Oil Company, Inc., in cooperation with Shell Development Company and Shell Chemical division of Shell Union Oil Corporation, will establish a half-million dollar, 142-acre agricultural laboratory at Salida six miles north of Modesto. This announcement was made this week by C. S. Garvin of Shell.

Experiments will be made in the field of spray oils, fertilizers, insecticides, fungicides, soil and grain fumigants and plant hormones.

In eastern lands they talk in flowers, and tell in a garland their loves and cares.—Percival.

## Hopeful Nesting

## PRE-WAR PROBLEMS

As we remember it, there were a lot of national problems still unsolved when our nation went to war. Since then they have become rather vague, for we have been tackling a problem so much bigger than any of them.

But before Pearl Harbor, as we recall it, there was still a good deal which needed to be done about unemployment, relations between business and government were in a terrific tangle and farmers had found no permanent solution to making a profit out of the food they raised.

It is the hope of a good many people that the war will somehow end with these problems solved. But we see no reason, at present, why this will happen. It looks very much to us as if, as soon as the war ends, all of the pre-war problems will quickly congregate on our doorsteps and be just as puzzling to handle as they ever were.

We can't escape from the pessimistic philosophy that war doesn't solve problems—it just makes new ones.

## 10% FOR THE DURATION

Because the war loan drives are carried on for a few weeks and then stopped, a lot of people seem to have come to think of patriotism as a sort of seasonal affair. Just as some of us confine our religion to Sundays, a lot of good Americans will chip in during the bond drives, help their town reach its goal, and then, when it is over, take a vacation from thinking about the cost of war.

Because of the temporary nature of enthusiasm, the total sale of bonds is probably greater, as a result of these spurts, than it would be if an attempt was made to keep us continually worked up about bonds. But the high sale during drives may also have a lot to do with the increasing number of bonds which are being cashed in each month.

The 10% plan—whereby we all make up our minds to put at least 10% of our weekly earnings into bonds for the duration has more lasting value than the "drive" plan. As long as the war goes on there is no reason why each of us cannot consider 10% of our wages as money to which we are not entitled until the war is won—and which will then be handed to us with interest.

## NO NEW MOTOR TRUCKS WILL BE AVAILABLE FOR REPLACEMENT SAYS ODT

Truckee and Tahoe operators hoping to replace their worn-out, or aging light trucks are told by the Office of Defense Transportation that there is little likelihood for new light motor trucks being available during the first quarter of 1945. A recent ODT request to the War Manpower Board to resume production, beginning with the first quarter of 1945, of light motor trucks has been refused because of the demand for trucks of this class by the armed forces.

All ODT offices have been advised not to accept any more applications for light trucks at the present time, for only 700 light trucks remain in the national pool, of these, only 300 are available for essential civilian uses, the remainder being earmarked for the military.

Look over all the appliances in your home. Check particularly those appliances you use constantly, like the range, vacuum cleaner, refrigerator, washing machine and iron or ironer. Do any of these need repair or conditioning? Durationize your appliances with constant care and timely repair. That also means careful use to avoid abuse. Blasting your radio at full volume, for example, can shorten its life. Use it, but tune it down. Open your refrigerator door as seldom as possible. Keep your fireplace damper closed when heating equipment is in use. It prevents heat waste up the chimney. Your government wants your present appliances to last for the duration. Their services save you time and money.

Vanilla, used for flavoring, comes from the bean of a tall climbing orchid.

## To Journeymen in all crafts

Maybe you're a Machinist, Boiler-maker, Carpenter, Electrician, or Pipefitter. Okeh—you're the man we're looking for. But first, we want to offer you something so you'll be looking for us. Well, what do we offer? Good wages (we've recently upped them considerably). That certain feeling you get when you're railroaded with S. P.—working in perhaps the most exciting, most interesting he-man's work there is. Working with friendly, salt-of-the-earth people. Yes, and with a permanent outfit. A job with S. P., you'll find, offers a good deal more than a good pay-check. It's something you can put your heart into, be proud of. You'll get railroad pass privileges, a real pension plan. Medical services. Everything that makes an S. P. job a bit better than most. Come in and have a talk with us. You can't lose by it, and you certainly stand to gain.

See or Write J. A. McKINNON

## Tahoe Briefs

The level of Tahoe Monday morning stood at 6227.54 with 288 CSF of water leaving the gates in town. The coldest temperature of the past week was 37 degree on July 21 and 21 and the highest was 82 recorded on July 17.

The Tahoe Park ranger station reports one small fire for the past week which occurred in the region near Homewood where a cedar tree, approximately six feet in circumference was set afire by children playing with matches. Fire was confined to the tree which had to be felled.

The George Maddox family of Sacramento have purchased one of the Shipley homes in the Lake Forest district.

Recent visitors at the A. M. Henry home in town were Mr. and Mrs. Gilbert Donaldson of Oakland who spent a week at Tahoe. While here they caught several limits of brook trout. They departed for home on Sunday.

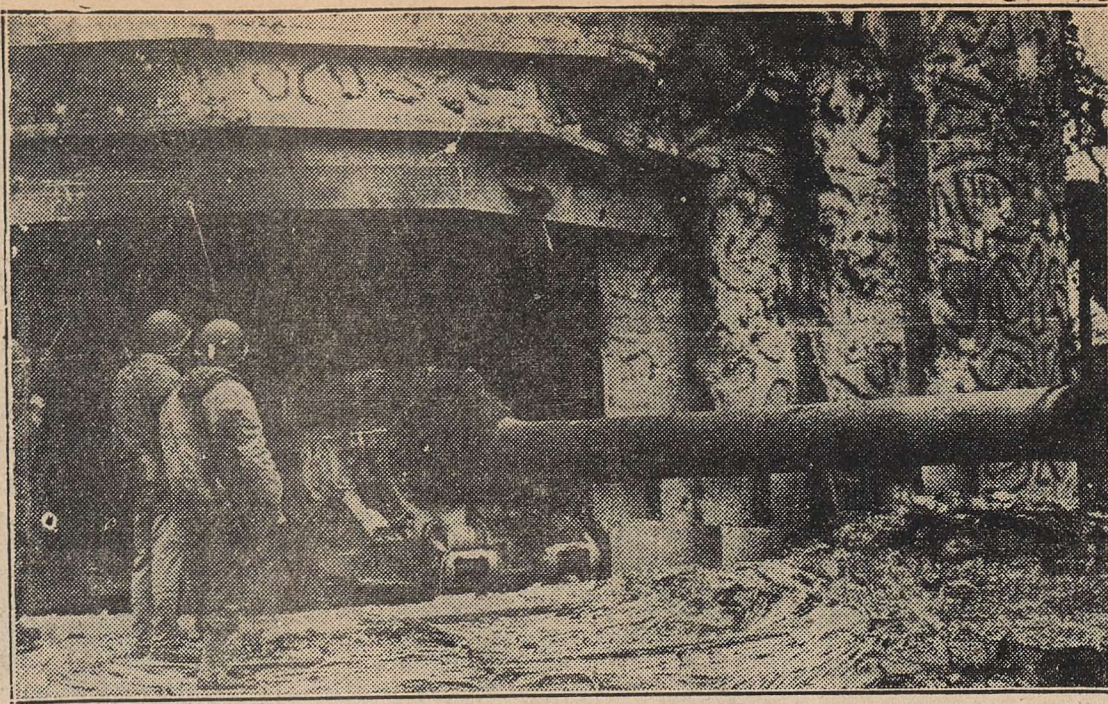

Harry Blanchard is enjoying a visit home with his wife in the Bittercourt tract.

Visiting old friends in the Tahoe area in Mrs. Helen Park of Berkeley former owner of Holiday House at Sunnyside. She is vacationing for the first time in years at Zephyr Cove and plans to return later in the summer following a short stay in the bay region. She has been kept busy in the San Francisco district with war work and reports that her daughter, Frances, is now nearing

completion of her flying course at a Nevada aeronautical school.

July was a month of birthdays at Tahoe among them William Wallace Mein, Sr., Constable Harry Johnson, Mrs. Elizabeth Walker and Mrs. Marie Henry, all on the 19th, with Clarence Vernon on July 26th, Miss Pat Henry on July 27, Miss

athleen Starratt's on the 20th, who celebrated this year in far off Burma. Blake Goss reported having his natal day the first week in July. Mr. and Mrs. A. M. Henry, Mr. and Mrs. Gilbert Donaldson, Miss Pat Henry and Miss Margo Howard were all guests at a cocktail party at the home in Mrs. Elizabeth Walker on

GERMAN WEST WALL CRUMBLES—Here is a Nazi concrete gun emplacement after it was finished off by the artillery of the Allied navy. This huge long-range piece was put out of action while the Germans tried to stem the landing on D-Day. American Infantrymen took over the trophy and its users.

## Meat Prices to Drop

Ad dto the shopper's notes for August: Several summer favorites in canned meats will be selling for about ten per cent less than at present. Canned and whole hams—smoked and unsmoked—as well as spiced luncheon meat, spiced and pressed ham and pressed pork are among canned meats coming down in price. The reductions will result when new ceiling prices go into effect August 4.

## Freedom From Fear

ONE of the ideal conditions for mankind, suggested in the Atlantic Charter as one of the Four Freedoms, is freedom from fear. If this state of mind could be legislated out of existence, no one would want to wait an instant before starting the machinery with which to accomplish it. Freedom from fear of aggression, invasion, and other obvious forms of terrorism, was no doubt in the minds of the framers of this charter of liberty; but thoughtful persons are free to go beyond this and consider the elimination of fear as a pattern of thinking, as a motive for actions and speech, as affecting health, and as a determining factor of human experience.

There is a form of personal, individual legislation which may be exercised in one's own mental realm. Mary Baker Eddy says on page 61 of "Retrospection and Introspection," "If you rule out every sense of disease and suffering from mortal mind, it cannot be found in the body." Accepting this as true and acting upon it, one may actually legislate over fear in himself.

It is not possible to rid oneself of fear merely by declaring, without understanding, that one is not afraid. This would be meeting one form of mesmeric suggestion with another. One must understand why one is not afraid. The reason a man does not need to fear evil is that God is good and God, good, is omnipotent and omnipresent. If God is all-powerful and man is His image and likeness, as the Bible tells us he is, then man reflects His power, the power of good. The statement, then, that we are not afraid is based on this strong foundation of fact, spiritual truth. It rests on the allness of God and on His all-powerful, protective goodness.

In the Bible story of David, the shepherd boy, who with a sling and a stone killed the giant, Goliath (see I Samuel 17), it is very plainly shown that David considered himself as representing the army of the living God, not as a solitary lad with an ineffectual weapon. He saw that a threat made against God, or against those who relied wholly on the one and only God, could have no power. If God is all-power, how can there be any opposite?

We can think of our brave soldiers as the representatives of the army of God, never helpless or isolated, but reflecting God's all-power, one with His omnipotence, protected by His encircling love. We read in the Bible (I John 4:18), "There is no fear in love; but perfect love casteth out fear." To hate an enemy as a personal entity does not cast out fear, but to love God, good, so completely, to love Principle so entirely, that we trust our very lives to His keeping while we serve Him in whatever way He chooses is manifesting the love that casts out fear. This is our protection.

No physical compromise, no standing aside, can assure safety; but the clear realization of the perfection of God and His allness can remove the insidious mesmerism of fear and its accompanying threat of danger. Man is safe, for he is fully conscious of his oneness with the omnipotent God, his Father and Mother, whose substance is Spirit, and whose incorporeality his true selfhood reflects.

—The Christian Science Monitor.

## Capitol Week

By Patricia Clary  
United Press Staff Correspondent

SACRAMENTO, July 27.—(UP)—Republicans of California beat the drums for their state and national candidates in the Capitol last week in a two-day confab which included the official state convention of the party and the biennial meeting of the state central committee.

The party officials chose Leo Anderson handsome Los Angeles attorney, to direct campaign strategy for the November elections after hearing speeches by Gov. Earl Warren, Lt. Gov. Frederick Houser and others.

Anderson set the note for the campaign by saying an organization would be set up to "elect the ticket from top to bottom."

Governor Warren gave his personal impressions of the national party candidates, calling Thomas Dewey and John Bricker a fighting team.

Warren said he had been acquainted with Dewey since the latter first bid for fame as a racket prosecutor in New York City, and said the New York governor is a man who understands western problems.

The governor also announced for the first time in public his endorsement of Houser's U.S. senatorial candidacy.

The prohibition party meeting simultaneously, did its best to mix up a little trouble for tavern owners. Taking advantage of superior court decision that a bar having 20 per cent of its business in food was a saloon and so illegal, the prohibitionists declared they would attempt to close every bar which has less than 50 per cent of its business in food.

A test case is being sought, meantime, by the state board of equalization to determine just the dividing line between a saloon and restaurant which also serves liquor. Enforcement agents of the board were told to interpret the food serving requirement strictly.

On the eve of hearings on Central Valley Project problems by two U.S. senate subcommittees, the bureau of reclamation released answers to a series of questions by the Irrigation Districts Association of California which constituted a broad statement of bureau policy in relation to the Central Valley Project.

The bureau put itself on record as: Promising not to attempt to compete with local districts in marketing of power and water, "unless the people of the district wish it."

Zealously respecting water rights of residents and organizations acquired under state law.

Intending to operate the Central Valley Project as a federal project. It declared that the fact that the state first proposed the project gave it no part in the control.

## The proudest title in the Army

IT CONSISTS of two simple words.

Yet every soldier who's worth his salt covets it.

This title is simply:

"Good Soldier."

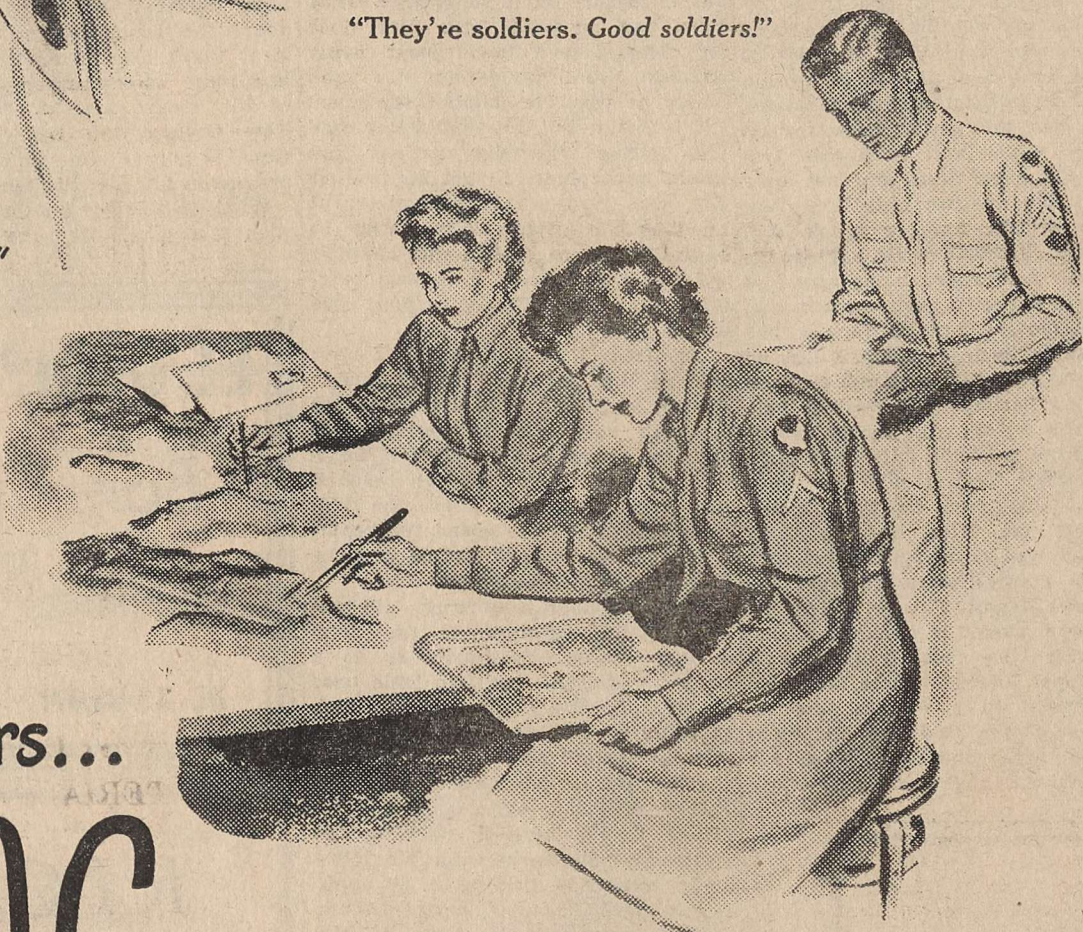

It isn't just happenstance that so many women in the WAC have earned this title—the proudest in the Army.

For wherever Wacs are working, both here and overseas, there you find a job well done. And done with a spirit so gallant and fine that high Army officers everywhere say of the WAC...

"They're soldiers. Good soldiers!"

"Good Soldier"

Making strategy maps for combat

Good soldiers...

# ARMED FORCES ON LEAVE MAY NOW SECURE MORE GASOLINE THAN BEFORE

A new policy on granting gasoline to members of the armed services on leave or furlough was announced today by Chester Bowles, price administrator.

Effective July 25, a member of the

armed services on leave or furlough for a period of three days or more will be entitled to one gallon of gasoline for each day of his leave or furlough up to a maximum of 3½ gallons. The new rule replaces one granting a flat five gallons to every member of the armed services on leave, regardless of the length of the leave.

## PROPOSED BUDGET

(Exclusive of Bond Moneys)

For the Truckee School District  
OF NEVADA COUNTY  
for the school year ending June 30, 1945

## PROHIBITION PARTY HAS CONVENTION AT CAPITOL

By M. F. (POP) SMALL  
United Press Staff Correspondent  
SACRAMENTO, July 27.—(UP)—They couldn't produce the crowd of people or the amount of fanfare to compete with the Republicans, but the Prohibition Party nevertheless held a convention this week.

Actually it was a meeting of the party's executive committee, with less than a dozen men and women in attendance. The woman was Mrs. E. Dow Hoffman, whose husband is minister of a Methodist Church at Los Angeles.

Although a majority of people may feel that theirs is a lost cause, one has to admire the bravery of the little group holding forth in a dingy room on the fourth floor of the capitol. Their session was opened with as much dignity as was the GOP convention occupying the assembly chamber on the second floor.

G. W. Rosendahl of Los Angeles, the party's new state chairman, was proud to tell the news correspondents that 11,400 California voters are now registered as Prohibitionists, a quadruple increase within the past four months.

Light of different colors travels at different speeds in matter but at the same speed in a vacuum.

What is true, simple and sincere is most congenial to man's nature.

—Cicero.

## TRAINING SCHOOL FOR BOYS AND GIRLS OF WAYWARD HABITS UNDER PROPOSAL

SACRAMENTO, July 27.—(UP)—Court Smith, who speaks with 14 years of experience in prison affairs believes that a proposal for state training schools for wayward boys and girls is something that should have been started a long time ago.

Smith was farden firts at Folsom prison and then of San Quentin. He told a legislative interim committee that the training school "if handled right, will do a lot of good in curbing juvenile delinquency."

Expressing opposition to reform schools, Smith said that boys and girls should be sent to such institutions only as a last straw. He said the present institutions are so crowded there is no proper segregation of hardened criminals from juveniles.

Smith declared that the schools should be kept small, saying it would be best to have several, none of them very big.

The interim committee taking testimony on the proposal, headed by State Senator Paul Dorsey of Bakersfield, will meet again in San Francisco on August 9th.

Joseph's Well at Cairo, one of the most famous of ancient wells, was excavated through solid rock to a depth of 297 feet and is still in use.

San Francisco's Leidesdorff street is named for a Dane who planted the first garden in the city.

## PROPOSED BUDGET

## FIVE MORE BLUE STAMPS TO BE VALID ON AUGUST 1

Five more blue stamps, each worth ten points, will be good for buying processed foods on Tuesday, August 1, the OPA announced today.

The stamps validated for August will be B-5, C-5, D-5, E-5 and F-5.

Five blue stamps, representing a total of 50 points, are validated on the first days of each calendar month and may be used indefinitely.

News of the invasion was immediately broadcast to the world in 28 languages and 11 dialects over all 23 transmitters of the O. W. I. in the United States, Africa and Europe.

## WAR PRODUCTION BOARD MAY PROVIDE SPORTSMEN WITH MORE AMMUNITION

The War Production Board in Washington is now working on a plan for allocation of ammunition to sportsmen, but final draft of the order is not expected to be complete before August 15.

This word was received today by Rep. Clair Engle, who previously had contacted officials in Washington at the request of local dealers who said they are having many requests for rifle ammunition from deer hunters. The season opens in some districts August 1, August 15 and September 16.
